Reaching Our Children in Kenya

December 2011

Dear Partner in Ministry,

It is with great Joy that I write this last letter of this year. God has done and continues to do so much through you. We are closing out this year with great expectations and a sharper vision of the Malava Children's Village. Our dream is closer to becoming a reality and the excitement is high. We are very near to completion of the Multi-purpose Hall and as an added bonus, God is providing Solar powered electricity for lighting, something we were not anticipating or pursuing but when God makes His plans so clear and obvious, we are forced to forge ahead. The funding for materials and installation is being provided by a donor organization from Germany. The first phase of the installation will be taking place in January.

Mr. David Howes, engineer and board member from the U.K. will be here to oversee this crucial part of the operation. During Mr. Howes' visit we will be taking a second look on the way forward and determining the sequence of events as we look at the very real possibility of moving our entire operation (home and school) to the new site by mid-year 2012. We need your continued prayer and financial support as we face the logistics of such a move. At times it seems daunting but then so does building a Children's Village with 21 family homes, but we know that with God nothing is impossible.

A simple reminder, all contributions are tax deductible and may be made online via our web site or may be mailed to the Lake Elsinore office but must be received by 31 Dec. 2011.

May God's Love, Joy and Peace be yours this Holiday Season!

Blessings,
Elaine

We Wish You A

Merry Christmas
